

AMENDMENTS TO THE SPECIFICATION

The Examiner has objected to the specification alleging that the Page 2, line 28 discloses "BE-A-838796", yet it should be "FR 838796". It appears that the Form PTO SB/08 submitted with the IDS filed on December 3, 2004, incorrectly read "FR 838796" instead of the correct citation "BE-A-838796". A copy of BE-A-838796 was included with the IDS filed December 3, 2004, and thus was fully disclosed by the Applicant.

To address the Examiner's objection to the specification, a corrected Form PTO SB/08 and another copy of the previously submitted BE-A-838796 document are enclosed with this Amendment for the convenience of the Examiner.
